01-Dependent - Helper does ALL of the effort. (Patient/Resident/Person) does none of the effort to complete the activity. Or, the assistance of 2 or more helpers is required for the (patient/resident/person) to complete the activity.

02-Substantial/maximal assistance - Helper does MORE THAN HALF the effort. Helper lifts or holds trunk or limbs and provides more than half the effort.

03-Partial/moderate assistance - Helper does LESS THAN HALF the effort. Helper lifts, holds or supports trunk or limbs, but provides less than half the effort.

04-Supervision or touching assistance - Helper provides verbal cues and/or touching/steadying and/or contact guard assistance as (patient/resident/person) completes activity. Assistance may be provided throughout the activity or intermittently.

05-Setup or clean-up assistance - Helper sets up or cleans up; (patient/resident/person) completes activity. Helper assists only prior to or following the activity.

06-Independent - (Patient/Resident/Person) completes the activity by {him/herself/themself} with no assistance from a helper.

07-(Patient/Resident/Person) refused

09-Not applicable - Not attempted and the (patient/resident/person) did not perform this activity prior to the current illness, exacerbation, or injury.

10-Not attempted due to environmental limitations (e.g., lack of equipment, weather constraints)

11-Not applicable - (Patient/Resident/Person) does not usually do this activity.

88-Not attempted due to medical condition or safety concerns

90-Not attempted due to short-term medical conditions or safety concerns.

--Not assessed/no information
### Assessment Item ID: GG0130C1

**Question Text:** Toileting hygiene: The ability to maintain perineal hygiene, adjust clothes before and after voiding or having a bowel movement. If managing an ostomy, include wiping the opening but not managing equipment. - Admission Performance
